1. A confirmed case is defined as detection of SARS-CoV-2 in a clinical specimen using a diagnostic test. A new case is defined as a positive test within the monthly reporting time period. A delayed case is defined as a positive test from previous month(s) of the monthly reporting time period. 2. A confirmed death is a death certificate that lists COVID-19 disease or SARS-CoV-2 as an underlying cause of death. 5. Monthly counts are subject to change as additional delayed case notifications are received.
